GRIN Verlag Sep 2015, 2015. Taschenbuch. Book Condition: Neu. 211x146x7 mm. Neuware - Seminar paper from the year 2013 in the subject English Language and Literature Studies - Culture and Applied Geography, grade: 1,0, University of Leipzig (Institut für Anglistik), language: English, abstract: In the late Middle Ages, so called 'mystery plays' enjoyed great popularity in English towns and especially in those of the north. Many of these plays were grouped in greater cycles among which the cycle of York, commonly known as the 'York Mystery Plays', is the best preserved, and presumably one of the oldest, largest and most elaborate ones as well. Its forty-seven constituent plays are concerned with Christian belief and sacred history, a circumstance reflected in the collection's authentic title - the Corpus Christi play. It is interesting that the term 'mystery plays', an invention of the 18th century, does not only point to the content of the cycle, as the alternative expression 'miracle plays' does. The term simultaneously addresses those associations of people that were responsible for the cycle's staging: the trade and craft guilds of a town. Based on the archaic meaning of the word, denoting a 'handicraft or trade', it was occasionally referred to these guilds as 'mysteries' as well. In the case of the dramatic cycle of York, each individual play was assigned to one (or in some cases two) of these 'mysteries' or guilds. This paper aims at investigating the role these guilds played in the organisation, the funding and the staging of the cycle. It can be argued that aside from their more obvious economic and social functions, the medieval trade and craft guilds also had a cultural function in the narrow meaning of the term. Further can be argued that the Corpus Christi cycle was not only a cultural...
