REMOTE SENSING APPLICATIONS IN DRYLAND NATURAL RESOURCE MANAGEMENT

New India Publishing Agency, 2013. Hardcover. Book Condition: New. Arid and semi-arid areas are now facing a threefold holistic crisis: economic, food, and climate. What has emerged from these crises is the vital importance of inter-linkages among them on the one hand, and the missed opportunities in putting these pieces together on the other. This book has tried to explore these challenges through in-depth discussions of the individual. It is anticipated to inspire a forward looking debate that looks at...

Reviews

Complete information for publication enthusiasts. I have gone through and that I am confident that I will go through once more again in the future. It has been printed in an exceptionally basic way and is particularly just following I finished reading through this book by which basically altered me, alter the way I really believe.

An extremely great publication with perfect and lucid answers. It really is written in straightforward phrases and never hard to understand. You can expect to like how the author writes this publication.

-- **Michaela Cruickshank III**

Absolutely essential go through publication. I am quite late in starting reading this one, but better than never. You will not feel monotony at any time of the time (that's what catalogues are for regarding if you ask me).
