

The Fight Over Food: Producers, Consumers, and Activists Challenge the Global Food System

By -

Penn State University Press. Paperback. Book Condition: New. Paperback. 312 pages. Dimensions: 9.0in. x 6.0in. x 0.8in. One problem with the food system is that price is the bottom line rather than having the bottom line be land stewardship, an appreciation for the environmental and social value of small-scale family farms, or for organically grown produce. Interview with farmer in Skagit County, Washington For much of the later twentieth century, food has been abundant and convenient for most residents of advanced industrial societies. The luxury of taking the safety and dependability of food for granted pushed it to the back burner in the consciousness of many. Increasingly, however, this once taken-for-granted food system is coming under question on issues such as the humane treatment of animals, genetically engineered foods, and social and environmental justice. Many consumers are no longer content with buying into the mainstream, commodity-driven food market on which they once depended. Resistance has emerged in diverse forms, from protests at the opening of McDonalds restaurants worldwide to ever-greater interest in alternatives, such as CSAs (community-supported agriculture), fair trade, and organic foods. The food system is increasingly becoming an arena of struggle that reflects larger changes in societal values and norms,...
